*Sent on Behalf of the Airports Director, Mr. Tracy Stage.*

Good afternoon,

We have received numerous comments on the draft Airport Minimum Standards and Rules and Regulations. Every comment is being reviewed and we are very pleased with the number of productive comments.

The goal of the Airport is to end up with a product that the tenants, the general aviation public, the airport and the businesses that operate on and support Destin Executive and Bob Sikes Airports are proud of and will allow the County's general aviation airports to continue to meet the growing aviation needs of the County. Your involvement is key to the success of this project and we welcome your comments and feedback.

The Public Review and Comment Period started as scheduled on November 1st. Because of the strong interest in the draft documents, we have extended the comment period an additional 30 days to December 31st. At the end of the Public Review and Comment Period, we will evaluate all of the comments and make appropriate revisions to the drafts. We will also prepare a response to the comments to assure transparency. As with any public process, we may not be able to please everyone, but we can assure you that everyone's voice is being heard and considered. Once we have received all comments, we will update the remaining meeting schedule.

If you have productive comments that will help us draft Minimum Standards and Rules and Regulations that will meet the expectations of safe, secure, self-sufficient, public use airports, please use the comment matrix provided at <https://flydts.com/notices/> to provide comments by December 31, 2022. We look forward to hosting another public meeting with our updates in the new year.

If you have any questions or need any assistance, please feel free to contact me anytime at 850-585-7086 or [tstage@myokaloosa.com](mailto:tstage@myokaloosa.com).
